

Increasing Solar Power and Solar Jobs in Maine

2016

By 2022

**Maine currently has only
18 MW of solar power**

We are in last place in the region for solar installations and solar jobs

This bill will add at least 248 MW of new solar by 2022

- 118 MW from residential/small business/small community solar (up to 250 KW each)
- 60 MW from grid-scale solar (up to 5 MW each)
- 45 MW from large community solar (up to 5 MW each)
- 25 MW from commercial/institutional solar (up to 2 MW each)
