

SENATORS SNOWE AND COLLINS: PROTECT THE ARCTIC NATIONAL WILDLIFE REFUGE FOR FUTURE GENERATIONS

Dear Senators Snowe and Collins,

Now more than ever, the future of one of America's wildest places, the Arctic National Wildlife Refuge, depends on you.

As champions of clean air, clean water, wildlife, and sound energy solutions, you understand that America's energy future lies in cleaner, cheaper, safer forms of energy, **not on drilling** in the last of our nation's pristine landscapes.

You understand that if oil rigs go into the Arctic Refuge, no vote can ever bring them back.

Fulfill your commitment to protecting America's Arctic National Wildlife Refuge for generations to come. Vote against the federal budget resolution if it contains a provision that would lead to drilling in the Arctic Refuge.

Sincerely,

Alaska Coalition of Maine

Environment Maine

Friends of Morgan Bay

Maine Audubon
