

Dear Senators Collins and King:

The undersigned businesses are part of Maine's clean energy sector. We develop, finance, install and maintain a diverse array of large and small renewable energy projects, and help Maine people and businesses make cost-effective investments to use energy more efficiently. We employ Maine people in quality jobs while making Maine more energy independent and more sustainable. We are writing to thank you for your initial votes to defend the Clean Power Plan and urge you to continue to support it because it is good for Maine's climate and good for our economy.

Maine has a long history with renewable energy and energy efficiency. From wood energy and hydropower a century ago, Maine's clean energy economy today is extremely diverse. From wood pellets and tidal energy to wind and solar power, our businesses translate Maine's renewable energy advantage into greater energy security and good paying local jobs.

Of course the cleanest unit of energy is the gallon of fuel or kilowatt-hour of power not needed when we use energy more efficiently. Our businesses are helping Maine homes, businesses and institutions become as energy efficient as possible, whether that is blowing insulation into attics or installing high-efficiency commercial HVAC equipment.

Maine has accelerated energy savings by leveraging our participation in the Regional Greenhouse Gas Initiative (RGGI). Since it started in 2008-2009, Maine has channeled \$70 million into energy efficiency investments that lower energy bills year after year, including home heating oil costs for tens of thousands of Mainers. We hope and expect Maine to continue with this smart approach.

Although RGGI is achieving its direct purpose of cutting climate pollution from power plants, it is also lowering energy costs, improving our economy, and creating quality clean energy jobs. RGGI positions Maine perfectly for the Clean Power Plan because it has already established a comparable carbon standard, provides direct savings from energy efficiency investments, and helps level the playing field with more polluting regions upwind of Maine.

Moving forward regionally and nationally with clean energy policies is important for protecting Maine's climate and natural resources. It is also a foundation for lower energy costs for Mainers and further growth in clean energy businesses like ours. We urge you to continue to support RGGI and defend the Clean Power Plan.

Elise Brown and Richard Burbank
Co-owners of Evergreen Home Performance
Rockland, ME

Phil Coupe
Co-founder of ReVision Energy
Liberty, ME

Jack Parker
President and CEO of Reed & Reed
Woolwich, ME

Matt Damon
Founder of Penobscot Home Performance
Bucksport, ME

Bo Jespersen
Owner of the Breathable Home
Manchester, ME

Josh Wojcik
Founder of Upright Frameworks
Wilton, ME

Vaughan Woodruff
Owner of Insource Renewables
Pittsfield, ME

Sam Zuckerman
Owner of Maine Solar Solutions
Portland, ME

Barry Woods
Founder of Electric Mobility NE
Portland, ME

Jeffrey Packard
CEO of Alodyne, LLC
Portland, ME

Curry Caputo
Owner of Sustainable Structures, Inc.
Hallowell, ME

Jesper Kruse
Founder of Maine Passive House
Greenwood, ME

Dwight Swisher
Owner of Tile, Transform, Renew!
Boothbay, ME

James Beaulieu
Energy Auditor at AMETHYX
Falmouth, ME

Paul Williamson
Development Manager at Apex Clean Energy
Portland, ME

Diane Milliken Schless and David Milliken
Co-owners of Horizon Residential Energy
Services Maine, LLC
Portland, ME

Laurie Osher
Founder of Osher Environment Systems
Orono, ME

George Gendron
Owner of Gendron Construction Services
York, ME

Ken Hnottavage-Telleen
Founder of GHG Underground
Brunswick, ME

Bob Frechette
Owner of Heat Mizer
Sanford, ME

Ben Knapp
Co-owner of Knapp Brothers Heat Pump
Installation and Service
Ellsworth, ME

David Clay
Director of Product and Energy Services
Mechanical Services
Portland, ME

Russell Martin

President of M-Co Engineering Plus
Freeport, ME

Scott Libby

Founder of Royal River Heat Pumps, LLC
Freeport, ME

David Coomer

Owner of Solarmarine LLC
Brooksville, ME

Thomas Campbell

Owner of Thomas Energy
Brewer, ME

Dick Mitchell

Owner of Maine Energy Savers
Phillips, ME

Ben Polito

President of Pika Energy
Westbrook, ME

William Morgner

Co-owner and President of Midcoast
Energy Systems, Inc
Damariscotta, ME

Lawrence O'Rourke

Owner of Optimal Energy
Sumner, ME

Julia Bassett Schwerin

Owner of Bassett and Associates
Cape Elizabeth, ME

Ann Goggin

Founder and owner of Goggin Energy
Portland, ME

Suzan Elichaa

Owner of Solaris, LLC
Portland, ME

Steven Teel

Owner of Teel Green Energy, LLC
Alna, ME

Micah Cram

Owner of Heat Pumps Unlimited
Hampden, ME

William Stauffer

Owner of Eco-Story
Portland, ME

Kay Mann

Founder of Green Energy Maine, LLC
Brunswick, ME

Ross Bradley

Owner of Uprising Power Systems
Bristol, ME

Adam Gifford

Senior Program Manager at CLEAResult
Augusta, ME

Heather Thompson

Owner of Thompson Johnson Woodworks
Portland, ME

Albert Monaco

Owner of Oyster Creek Electric and Solar
Options
Damariscotta, ME
