

Efficiency Maine Saving Energy & Money

..in Lincoln County

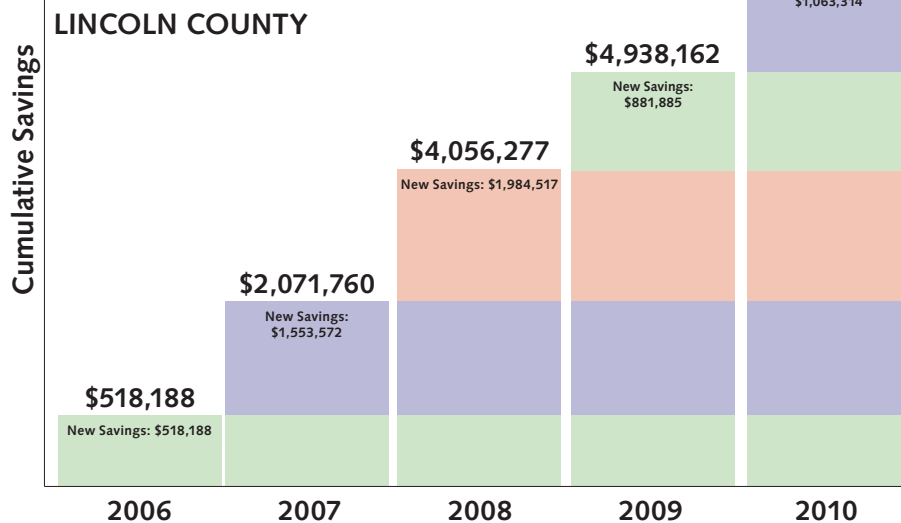

Efficiency Maine programs are helping Lincoln County save energy and money while providing work to the existing energy efficiency sector. Efficiency Maine's three largest on-going programs are saving Lincoln County businesses and families more than \$6 million from projects completed since 2006. Less than \$256,000 of Efficiency Maine incentives leveraged nearly four times that amount (more than \$1 million) in private investment—which was redistributed throughout the Maine economy, including to other Lincoln County businesses.

Bailey Orchards Whitefield
Pro Body Works Wiscasset

..in Maine

Efficiency Maine is the state's initiative to save energy and money through energy efficiency. Since 2004, Efficiency Maine has saved Maine people and businesses \$487 million on their energy bills and leveraged more than \$86 million in private sector investments. By 2009, Efficiency Maine had saved as much total electricity as all Maine households use in a year. The programs help homeowners, businesses, towns, schools, hospitals, and others make wise, cost-effective investments in energy efficiency. Efficiency Maine programs save energy at a price of about 4 cents/kWh—less than half the cost of electricity, and include technical assistance, financial incentives, training, and quality assurance. In 2010, Efficiency Maine developed a three-year plan, with greater emphasis on heating fuels, which will save Mainers \$840 million and increase the state's GDP by \$1 billion. Efficiency Maine's efforts are one of the reasons why Maine's clean energy sector now employs over 4,000 people, and is growing more than seven times faster than the state's overall job growth.
