

# Efficiency Maine Saving Energy & Money

## ..in Sagadahoc County

Efficiency Maine programs are helping Sagadahoc County save energy and money while providing work to the existing energy efficiency sector. Efficiency Maine's three largest on-going programs are saving Sagadahoc County businesses and families more than \$12 million from projects completed since 2006. Less than \$633,000 of Efficiency Maine incentives leveraged nearly four times that amount (\$2.5 million) in private investment—which was redistributed throughout the Maine economy, including to other Sagadahoc County businesses.

## Sagadahoc County Businesses Saving Money

Since 2006, more than 130 energy improvement projects have been completed by Sagadahoc County businesses. These businesses have received nearly \$716,000 in financial incentives and are saving more than \$6 million over the life of the projects. These businesses are across Sagadahoc County, and include:

- Bath Iron Works Bath
- Bath Area Family YMCA Bath
- K&G Hardware Richmond
- Morningstar Marble and Granite Topsham
- Sebasco Harbor Resort Phippsburg
- Bisson Moving and Storage Bath
- The Highlands Retirement Community Topsham

## ..in Maine

Efficiency Maine is the state's initiative to save energy and money through energy efficiency. Since 2004, Efficiency Maine has saved Maine people and businesses \$487 million on their energy bills and leveraged more than \$86 million in private sector investments. By 2009, Efficiency Maine had saved as much total electricity as all Maine households use in a year. The programs help homeowners, businesses, towns, schools, hospitals, and others make wise, cost-effective investments in energy efficiency. Efficiency Maine programs save energy at a price of about 4 cents/kWh—less than half the cost of electricity, and include technical assistance, financial incentives, training, and quality assurance. In 2010, Efficiency Maine developed a three-year plan, with greater emphasis on heating fuels, which will save Mainers \$840 million and increase the state's GDP by \$1 billion. Efficiency Maine's efforts are one of the reasons why Maine's clean energy sector now employs over 4,000 people, and is growing more than seven times faster than the state's overall job growth.
