

Efficiency Maine Saving Energy & Money

..in Waldo County

Efficiency Maine programs are helping Waldo County save energy and money while providing work to the existing energy efficiency sector. Efficiency Maine's three largest on-going programs are saving Waldo County businesses and families \$7.8 million from projects completed since 2006. \$565,000 of Efficiency Maine incentives leveraged three times that amount (\$1.6 million) in private investment—which was redistributed throughout the Maine economy, including to other Waldo County businesses.

Savings Stack Up Year After Year

Waldo County Businesses Saving Money

Since 2006, more than 120 energy improvement projects have been completed by Waldo County businesses. These businesses have received \$790,000 in financial incentives and are saving more than \$4.2 million over the life of the projects. These businesses are across Waldo County, and include:

GAC Chemical (Searsport)
Robbins Lumber (Searsmont)
Waldo County General Hospital (Belfast)
Pendleton Yacht Yard (Isleboro)
Frankfort Elementary (Frankfort)
Aghaloma Farms (Knox)
Swan Lake Grocery (Swanville)

..in Maine

Efficiency Maine is the state's initiative to save energy and money through energy efficiency. Since 2004, Efficiency Maine has saved Maine people and businesses \$487 million on their energy bills and leveraged more than \$86 million in private sector investments. By 2009, Efficiency Maine had saved as much total electricity as all Maine households use in a year. The programs help homeowners, businesses, towns, schools, hospitals, and others make wise, cost-effective investments in energy efficiency. Efficiency Maine programs save energy at a price of about 4 cents/kWh—less than half the cost of electricity, and include technical assistance, financial incentives, training, and quality assurance. In 2010, Efficiency Maine developed a three-year plan, with greater emphasis on heating fuels, which will save Mainers \$840 million and increase the state's GDP by \$1 billion. Efficiency Maine's efforts are one of the reasons why Maine's clean energy sector now employs over 4,000 people, and is growing more than seven times faster than the state's overall job growth.
