

We Support a New National Park and National Recreation Area

To Maine's Congressional Delegation:

We urge you to support the creation of a 150,000-acre National Park and National Recreation Area east of Baxter State Park, as proposed by Elliotsville Plantation, Inc. The proposed National Park and National Recreation Area would have significant conservation and recreation benefits, and would also stimulate much-needed economic development in the Katahdin region. That is why the proposal has earned the endorsement of the Katahdin Area Chamber of Commerce and Katahdin Rotary Club, among others. We urge you to support legislation in Washington, D.C. to establish the new National Park and National Recreation Area.

Respectfully,

13,580 people from 371 Maine cities and towns, 50 U.S. states, and 53 nations

Maine
