

TOWN OF TRENTON

February 12, 2020

Sarah K. Nichols
Sustainable Maine Director
3 Wade Street, Augusta, Maine 04330

Whereas the Town of Trenton Maine recognizes the need for responsible management of our municipal solid waste, and the town recognizes the relationship of solid waste production to consumer activity and producer packaging choice, as well as the effect of Solid Waste Management on long and short-term fiscal, environmental, and health outcomes for the citizens of Trenton and other Maine municipalities, the Select Board has voted in support of the State's continuing exploration of the concept of Expanded Producer Responsibility.

Very truly yours,

R. Frederick Ehrlenbach
Chair, Board of Selectmen
