**Total CDD includes mixed CDD and CDD wood

source: ReEnergy Lewiston annual reports

Dear Maine Lawmaker,

The extensive dumping of toxic out-of-state waste in our State-owned landfills is threatening sites of historical, cultural, and spiritual significance for the Penobscot Nation, neighboring residents, and the Penobscot River and Bay. It must be stopped.

The State purchased Juniper Ridge Landfill (JRL) in Old Town to prevent Maine from becoming a dumping ground for out-of-state waste, but an astounding 30% of the waste being buried there is in fact from out of state. This is because of a loophole in our laws that classifies waste as “generated within the state” just by virtue of being delivered to one of Maine’s waste processing facilities on its way to JRL.

Most of the waste coming into Maine is toxic construction and demolition debris (CDD) from Massachusetts, where disposal of CDD waste has widely been banned from their landfills. Until we strengthen our laws, too, Maine will unjustly continue to be a dumping ground for other states and countries.

Please vote in support of LD 1639 to protect Maine’s people, land, air, and water by closing the loophole and stopping the practice of filling our State-owned landfills with toxic out-of-state waste.

Ann MacEachern

Acton, Maine

Comment: Please stop accepting trash from other states! Massachusetts needs to reduce and recycle their own waste.

Michael Macrum

Acton, Maine

Comment: Pretty sad state of affairs that Maine allows Massachusetts to dump waste here they won't allow dumped inside their own borders.

Ellen Tarbox

Acton, Maine

Comment: We all have to learn to deal with our own waste!

Sarah Dennison

Bangor, Maine

Comment: I don't want Maine to be the trash dump of the Northeast. Other states should deal with their own waste. It's poisonous and gross and why would we take it? We can make money other ways, we shouldn't take trash money, we should take tourist money, and they don't go hand in hand. If we don't keep Maine clean people won't want to come here. Further, it's incredibly unjust to treat the Penobscot Nation this way, dumping on their ancestral land and poisoning the river just above their reservation so they can't fish and practice their culture. Please close the loophole and only let Maine's trash pile up in Maine, that's plenty enough.

Comment: Besides filling up Maine landfills, this is a racial justice issue: the toxic waste pollutes the waters the Penobscot's rely on for drinking and fishing in violation of their rights.

Vivienne Lenk
Beaver Cove, Maine
Comment: There ought to be cradle-to-grave regulations to prevent anyone (person, corporation, company) from relieving themselves of the burden of toxic waste. People need to start educating themselves about what is being made, how it's being made, what kind of materials are used in the manufacture of it and what kind of materials are left over after manufacture and what happens to those leftovers. We have to start paying attention as this is all part of what contributes to climate events.

Edward Griffith
Fairfield, Maine

Gale Harvey
Fairfield, Maine

Steven Meyerhans
Fairfield, Maine
Comment: Every day dozens of trucks with Massachusetts license plates rumble past my house on their way to the Norridgewock landfill, right on the banks of the once pristine

Kennebec River. Why are we sacrificing our environment for a few bucks, chopping up our forests for Massachusetts electricity demands, giving away our precious groundwater for bottled water sent out of state?

Kait O'Brien

Fairfield, Maine

Kathryn Raymond

Fairfield, Maine

Pol Wheelock

Fairfield, Maine

Comment: Adjacent & nearby states want us to deliver electricity to them from Canada while they deliver thousands of tons of waste to our landfills. This is hardly a fair trade.

Maine is not a dumping ground for others, nor is it responsible to furnish the power to them in order to generate more waste. The Maine legislature should stop this madness now by endorsing LD 1639. Please vote in support of LD 1639 to protect Maine's people, land, air, and water by closing the loophole and stopping the practice of filling our State-owned landfills with toxic out-of-state waste. Pol Wheelock
Fairfield, Maine

Edward Asherman

Falmouth, Maine

Catherine Chamberlain

Falmouth, Maine

Comment: Landfills are called that for a reason. They fill the land with waste. It is far too easy to just throw it away. Where is away?

Jennifer Cummings

Falmouth, Maine

Comment: Please! Don't let other states dump their waste here! Once people have to take care of their own refuse they tend to pay closer attention to how much they actually produce. Maybe everyone should have to keep all their own waste on their own property instead of having it taken out of sight (out of mind).

Jacqueline Curley

Comment: What a mess! We should all be attempting to create less waste and recycle more. Planned obsolescence is part of the larger issue. Items which should be repaired and reused are often not repairable. Which is criminal actually. (A newer refrigerator with a tiny buried chip which could not be replaced is an example from my home.) Another issue is why everything needs to be packaged in materials which never break down - ie shiny mylar type packaging. Thanks for listening! and trying to change the easy dumping practices which out of state companies are taking advantage of.

Comment: We have enough of our own waste in this state. If

you drive through Standish now all up and down every road, people throw their trash out the windows onto the ground. It is disgusting and looks horrible. We certainly don't need out of state trash filling up our landfills. And certainly not near cultural grounds. Thank you, Deb Boxer

Amanda Powell

Marshfield, Massachusetts

Comment: I join in solidarity with Penobscot Nation and local

communities in supporting LD 1639 and an end to filling Maine's landfills with out-of-state waste.

Virginia Camelio

Randolph, Massachusetts

Comment: keep waste accountable and within the state that generates the waste.

steven martin

Salisbury, Massachusetts

Comment: I have worked for decades as a building and renovation carpenter contractor in the north east, from Boston to Portland Maine. We have taken hundreds of tons to the scale at the local transfer station in Georgetown Massachusetts. I have asked, to where is the debris hauled. I was informed, 'somewhere near Oldtown'. I have never felt right with knowing this. Massachusetts should take responsibility, devise and mandate an industry. The heck with exploring Planet Mars; there are problems to tend to right at home.

Sherry Palmer

Rochester, New Hampshire

Comment: I live in New Hampshire, but was born in Maine. Every state should properly dispose of their own waste (mainly limit it!), within their own state. Using another's state resources is selfish and irresponsible. I'm saddened to learn that NH is putting their trash in Maine!

Denise Androvette

Syracuse, New York

Comment: Concern for Maine started with my childhood visits to Bucksport, home of my grandmother. Maine must not accept toxic dump it from other states. Simply wrong

Marilyn Hartman

Austin, Texas

Comment: This is an unfortunate loophole that needs to be closed. Maine should not be the dump for surrounding states, which need to provide for their own waste, some of it toxic. I grew up in Maine and return there for four months every summer to a pristine lake in the northern region, not terribly far from Old Town and the Juniper Ridge Landfill. I support LD 1639. Please pass it. Thank you for your consideration.
