

# Maine Wildlife “Find the Differences”

Maine is known for its abundant plants and wildlife. Those of us who live among them can be lulled into taking them for granted. Many plants and animals are already at risk, which is why the Recovering America’s Wildlife Act (RAWA) is so important. We hope you enjoy this fun way to “pay attention” to the nature of Maine by spotting 18 differences in the two pieces of art. We also encourage you to urge your elected federal officials to support RAWA. Learn more at [nrcm.org/programs/federal/federal-water-land-wildlife](http://nrcm.org/programs/federal/federal-water-land-wildlife).

Contact us at [nrcm@nrcm.org](mailto:nrcm@nrcm.org) for the answers to the puzzle.

*Toki Oshima is an illustrator who lives in Belfast. She has a notecard business at [tokiart.com](http://tokiart.com) and plays music with her husband John Pranio. She loves making art with kids. She says, “Doing this ‘one of a kind’ project was a lot of fun!”*
